

Mandatory Approvals

Infinite Fusion Works Private Limited has entered into Memorandums of Understanding (MoUs) with qualified ASNT Level-II certified personnel/agencies for carrying out Non-Destructive Testing (NDT) activities and with NABL-accredited laboratories for physical, chemical and mechanical testing of materials as required. All relevant certifications, accreditations, approvals, and validity documents of the respective ASNT Level-II operators/agencies and NABL-accredited laboratories are maintained at their respective premises and are available for verification. Copies of these certificates and supporting documents shall be provided to the client, inspecting authority, or RDSO upon request. This arrangement ensures compliance with applicable standards and project-specific quality requirements.
